

CS 412: Project Guidelines

Project Deadlines:

	Homework	Deadline	Points
Step 1	Choose Topic/Groups	Oct 21	5
Step 2	HTML Submission	Oct 28	25
Step 3	CSS Submission + JavaScript Submission	Nov 11	30
Step 4	Server-Side / Final Project Website	Dec 7	40
Total Points:			100

Step 3 (30 pts): CSS/JavaScript Submission (due November 11, 2021)

CSS and JavaScript Requirements:

1. Use at least 1 external CSS file, containing at least two class elements, two id elements, and two element type selectors.
2. Fix any corrections necessary from the HTML component (see any HTML feedback provided by your instructor).
3. Ensure the site has a consistent and user-friendly look and feel.
4. One JavaScript items of your choice used appropriately with your site.
5. Upload your project to the cs.neiu.edu server.
6. Any HTML page must be successfully validated!

Additional Challenges (Optional):

1. Minimum of 2 declared font types.
2. Additional JavaScript item used appropriately on your site.
3. (You are allowed to use Bootstrap if you would like to.)

Submission: CSS/JavaScript Project Submission CSS Folder on D2L (only one person per group needs to submit)

1. Type in the URL of your project.
2. Submit your code in a .zip file.
3. All HTML validation screenshots (you do not need to do the CSS validation).
4. If you are in a group, include a file stating which people in the group contributed to this part of the assignment and each of their contributions. If a student does not contribute to this part of the assignment, that student will receive a 0. If a student contributes much less than the other students in the group, points will be deducted accordingly.
