

CS 412: Project Guidelines

Step 1: Choose Project Topic and Group:

The goal of this project is for you to build a complete website using all the technologies that we covered in class.

Example Topics:

- School Club: Website where students can find information about a club
- Restaurant: Website for a restaurant with menu, food items, and more.
- Clothing store: Purchase your favorite clothing items
- Feel free to choose your own topic!

Project Deadlines:

	Homework	Deadline	Points
Step 1	Choose Topic/Groups	Oct 21	5
Step 2	HTML Submission	Oct 28	25
Step 3	CSS Submission + JavaScript Submission	Nov 11	30
Step 4	Server-Side / Final Project Website	Dec 7	40
Total Points:			100

Step 1 (5 pts): Choose Topic/Group (due October 21, 2021)

Teams: You can work individually or you may work in groups. For groups, it may be preferable to choose individuals that are in your peer leading session to make it easier when working with your peer leader (but not required). For each step, every group member must have an equal part in order for that individual to get full credit. You will also need to assign a group leader who should be someone organized who will submit the work before each deadline. That individual will also submit the names of the students and what each person did. Everyone must contribute to get credit.

Submission: Team leaders should email me the following and CC any members of their group:

1. Project Title
2. Project Description - couple of paragraphs describing the topic
3. Whether you are working individually or in a group and the names of those in the group.
