

CS 412: Project Guidelines

Project Deadlines:

	Homework	Deadline	Points
Step 1	Choose Topic/Groups	Oct 21	5
Step 2	HTML Submission	Oct 28	25
Step 3	CSS Submission + JavaScript Submission	Nov 18	30
Step 4	Server-Side / Final Project Website	Dec 7	40
Total Points: 100			

Step 2 (25 pts): HTML Submission (October 28, 2021)

HTML Requirement:

1. For this submission, you will only need to submit the main index.html file. (Additional HTML pages including a form will be done later.)
2. Include a title in the HTML head section.
3. Include a heading using header tags.
4. All content should be included in the page (with appropriate tags, example <p>)
5. You must have at least one list (unordered, ordered) OR a table.
6. Images should be in place, but not necessarily formatted (You must have at least 1 image).
7. JavaScript and CSS do not need to be included at this point.

Additional Challenge (optional):

- Include HTML5 elements such as sections.
- All image files should be placed in an images folder.

Submission: HTML Project Submission HTML Folder on D2L (only one person per group needs to submit)

1. Type in the URL of your project.
2. If you are in a group, team leader should include a file stating which people in the group contributed to this part of the assignment and each of their contributions. If a student does not contribute to this part of the assignment, that student will receive a 0. If a student contributes much less than the other students in the group, points will be deducted accordingly.
