

Project Title & Project Summary

You may work in groups or independently.

For those in groups:

- Groups can be up to 3 people.
- Every group member must have an equal part in order for that individual to get full credit.
- You will need to assign a team leader who should be someone organized who will submit the work before each deadline.
- The team leader will submit the names of the students who contributed to the project (for each deadline). If you do not participate with your group you will receive a 0. If the team leader is not contributing it is the job of the team to let me know.

Sample topic ideas (Feel free to choose your own!):

1. Matchmaking Database - Database of friends – match them up by interests, age, etc.
4. Library DB - Search collections, check status, checkout, etc.
5. Job postings DB - Openings, contacts, references, requirements, etc.

Your database should use approximately 4 tables at the end of the project.

Submission

Please email me the following:

1. Project Title
2. Project Description (*a couple of paragraphs describing your project title in more detail*)
3. Whether you are working in a group or individually. And if you are in a group, please email me the names of all group members (CC them as well) and the name of the team leader.
